Hello Mahmood,

It's my pleasure 😊

Mahmood is a very high achieving student with high academic performance. He manages outstanding grades with a perfect attendance record. His engagement in class is truly remarkable which makes him one of the students that stand out, you can tell how he much he improved and progressed from his first year to his ongoing third year. His engagement in the classroom has a positive impact. I can truly see how he grew personally and academically throughout the years. My message to him is: Please continue to be the person you are, to impact and not to be impacted, to thrive with curiosity and innovation.

Best Regards,

Nedhal Almutawa | MBA

Subject: Request for Testimonial for Academic Portfolio

Dear MS. Nedhal,

I hope you are doing well at a time like this. My name is Mahmood Alaradi (ID: 202404120). I was a student in your Networking and Data Communications course (IT 6003), and I am currently also taking classes with you this semester in IT Applied Project.

As part of my “Market Yourself” course, I am preparing an academic e-portfolio and would like to include testimonials from instructors who have taught me. Since I have had the opportunity to learn from you in more than one semester and have grown significantly as a student during that time, I would greatly appreciate it if you could provide a short testimonial about my development, participation, or performance.

A brief statement of a few sentences would be more than sufficient, and it will only be used within my academic portfolio.

Thank you for your continued support and guidance this semester.

Kind regards,
Mahmood Alaradi
